

# Acceleration Through Simplification

LabConnect's sample management delivers samples when you want them, and where you need them

Today's testing comes with strict timelines and sample maintenance requirements that leave no room for error—especially when delivering around the world.

**Reduced time from collection to analysis.** LabConnect leads the industry in sample management and real-time tracking services. With an end-to-end chain of custody, real-time monitoring, and comprehensive biorepository services, it's no wonder we have 100% sample accountability for every visit and sample.

Numbers you can count on.

**>85%**  
 COMPLIANCE IN GETTING DAY-OF COLLECTION INFORMATION COMPARED TO 50% INDUSTRY STANDARD

**100%**  
 SAMPLE ACCOUNTABILITY

**>98%**  
 ON-TIME DELIVERY RATE AROUND THE WORLD

Sample Management

LABCONNECT 

## Logistics

**Rapid and reliable sample delivery.** Our courier partnerships combine global and last-mile capabilities with protocol-specific shipping lanes for fast and dependable sample delivery.

## Sample Tracking

**A specialized touch for your more specialized needs.** We provide two options that go beyond the routine for fast, accurate lab sample tracking — LabConnect Enhanced Tracking and Hyper-Tracking.

## Biorepository

**Seamless integration for a transparent chain of custody.**

Our state-of-the-art biorepository provides secure storage for a variety of biospecimen types and storage temperatures. This offers many benefits, including cost savings, flexibility, and future-proofing.

→ **Real acceleration. Real results.** A client had a very short stability window for their study and needed pinpoint visibility into the status of sample collections, shipments, and accessioning at the labs. Because the results of the safety testing were needed for inclusion/ exclusion criteria, we suggested they track ALL samples, including safety samples. By hyper-tracking both storage and safety samples, our clients knew exactly when to expect results so they could make quicker decisions.

**About Us:** LabConnect delivers Central Laboratory Services and Functional Service Provider Solutions tailored to meet your critical clinical trial milestones. For 20+ years, we have helped organizations like yours handle the increasingly complex requirements of the drug development process without missing a beat.
